Made
for people.
At work.

Taking responsibility is Our Choice.

Responsibility

For us, responsibility is a commitment that guides everything we do. We work to build an ethical supply chain, reduce our environmental footprint, and help our partners make choices that meet their needs.

Certificates

Our certificates represent our dedication to meeting the highest standards with transparency and trust. Each certification documents our efforts and gives our partners confidence in our quality and responsibility.

Our Choice

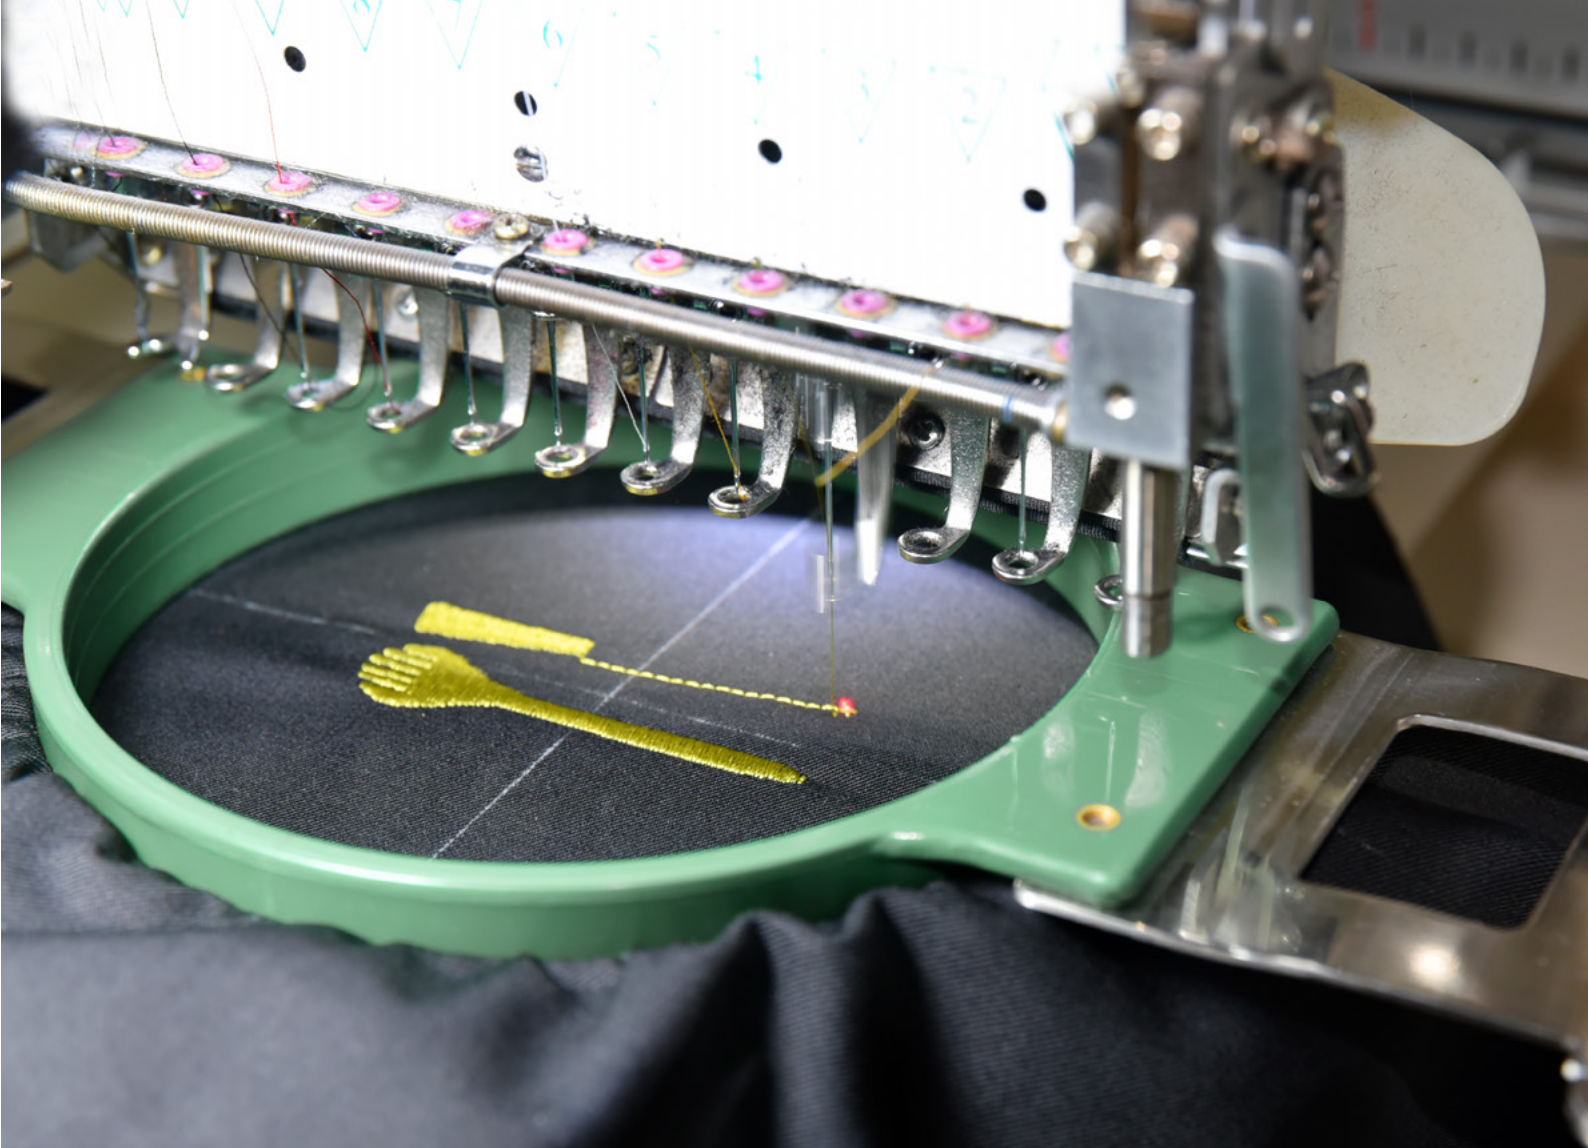

Our Choice is our responsibility strategy and our way of turning words into action. We go beyond legal requirements with transparency and ambition, giving our partners clear insight and practical guidance.

Life Cycle Assessment

Through Life Cycle Assessments (LCA), we measure the environmental footprint of our products from raw material to ready-to-wear. Our calculations are available on our website, where you can select any product and view its impact.

Value Added Services. *And just a bit extra.*

Embroidery & transfer

At our production facility in Poland, we specialize in high-quality embroidery and durable transfers. Whether it is logos, names, or custom designs, we ensure a professional and precise result every time.

Chip, tracking & overview

Tracking chips can be directly integrated into garments during production. Each chip enables easy identification, sorting, and inventory management for efficient and reliable operations.

Customization & special sizes

We offer customization options and special sizes to ensure the perfect fit and function. Pants and sleeve lengths can be adjusted, and extra pockets added. We can also produce smaller quantities to ensure faster delivery.

Digital tools

Our digital tools make managing workwear easy. With MyKentaur, you get access to your orders, check stock levels, confirm size availability, and more. Use our Mix & Match tool to visualize and customize workwear concepts and explore Build Your Own Catalog to create personalized selections for customers.

Chef Jacket
23535

Style on the Menu.

With its clean, Nordic-inspired design, the Menu Chef Jacket serves simplicity, functionality and effortless style in one. The single-breasted silhouette gives a timeless look that fits seamlessly into professional kitchens where appearance and performance go hand in hand.

Designed for comfort and freedom of movement, the jacket features side slits and cuff slits for extra flexibility. A concealed snap button closure keeps the front neat and polished, while a pen pocket adds a practical detail for chefs on the move.

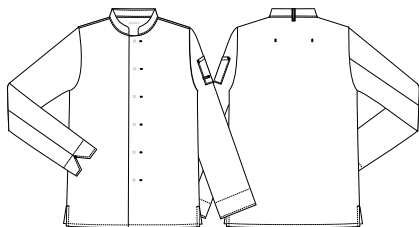

Crafted from a durable blend of 65% polyester and 35% cotton, the Menu Chef Jacket is made to withstand the daily pace of a busy kitchen while keeping its sharp and modern look wash after wash.

Minimalist, refined and made for professionals, it is a jacket that puts style firmly on the menu. And now it is also available in our Circular Touch quality, where the fabric contains 10-20% recycled cotton and polyester without compromising on quality. Read more on page 114.

Apron
30538

Snap on and off.

Comfort and functionality are essential in demanding work environments, and our Snap-on collection delivers both. Designed with innovative features, this range of chef shirts, jackets and aprons provides ergonomic benefits that make a real difference during long shifts.

The defining feature of the Snap-on collection is its concealed snap buttons, which allow users to easily attach one of our Snap-on aprons. This smart design minimizes neck strain by distributing the weight of the apron across the upper body, reducing discomfort and pressure throughout the day.

Switching aprons is quick and simple. When an apron gets

dirty, there is no need to pull it over your head. Just unbutton it for easy removal and maintain a clean and professional appearance at all times.

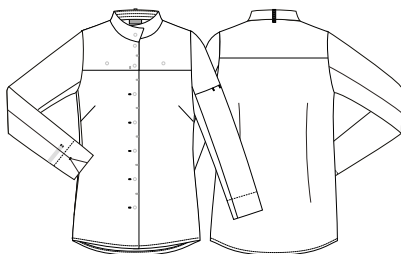

The Snap-on collection is as stylish as it is functional, with a wide selection of colors, designs and materials to fit any workplace. Whether you prefer a classic or modern look, it provides the chance to express personal style while staying practical and comfortable.

With Snap-on you get more than workwear. You get smart design that lets you snap on and off with ease.

T-Shirt
25295

Fits EveryWear. Works like you.

Made for people who value comfort and functionality, the EveryWear T-shirt elevates a wardrobe essential into professional workwear. With its clean design, it moves easily between kitchen and front-of-house, offering a look that is both relaxed and refined.

A raised neckline with an integrated apron strap holder keeps aprons in place and helps reduce neck strain during long shifts. A reinforced pen pocket on the sleeve adds durability and easy access to everyday tools.

Crafted from a 60% cotton and 40% polyester blend, the shirt provides breathability, comfort, and long-lasting performance.

Available in white, black, and navy, it's a timeless essential for professionals who blend function with style.

"Kentaur is collaborating with us at Lielle to design a T-shirt for durability and functionality. This partnership enable us to invest in our staff's comfort and uniformity at a lower price, which aligns with our goals. Thank you, Kentaur, for being a dedicated partner that continuously evolves with us and our industry."

Marcus Jernmark, Chef & Partner, Lielle, Los Angeles,

Piqué Shirt
25160

Piqué. Perfected.

Our new Piqué Shirts combine the sharp look of a shirt with the comfort of a polo. Available in both men's and women's fits, and in short- and long-sleeved models, they are designed for professionals who need style, flexibility and all-day comfort.

Stretch and breathable piqué panels in the back and under the sleeves provide freedom of movement through long shifts, while details such as a shirt collar, chest pocket with ID loop, Pull-Up cuffs, hidden snap buttons and side slits make them as practical as they are comfortable.

Made with recycled polyester, T400 fibers and CiCLO® technology, the Piqué Shirt offers durability with a lighter footprint.

CiCLO® technology is used in the knitted piqué panels, helping synthetic fibers naturally biodegrade, and reducing microplastic fiber pollution without compromising quality or longevity.

The CiCLO® marks are registered trademarks of Intrinsic Advanced Materials, LLC.

Available in black, white and grey, this is workwear that looks sharp, moves with you and performs to perfection.

Jacket
23544

Out of office. Into the Wild.

Outdoors, where the elements are unpredictable, warmth and durability are essential. The Wilderness Jacket combines comfort, flexibility and strength, making it the perfect choice for professionals who need freedom to move while staying protected.

Functional details include a divided pen pocket on the sleeve and chest, Pull-Up cuffs, hidden press buttons and a roomy fit. The hidden buttons allow you to attach a Snap-on apron when needed, while the hood keeps you covered when the weather changes.

Crafted from durable materials and designed for all-day wear, the Wilderness Jacket works as hard as you do. Versatile and reliable, it is built for modern outdoor and service environments. When work takes you out of the office, you are ready for the wild.

A man with grey hair and a beard is leaning against a brick wall. He is wearing a grey overshirt over a white shirt and a dark blue sweater. He is holding a small white object in his hands. The background is a blurred outdoor setting with a dark green door.

Overshirt
23055

Over and above. At work.

This stylish overshirt is designed for chefs and service staff who work outdoors, in cold storage rooms or simply need an extra layer of warmth. It combines durability, flexibility and all-day comfort, making it the perfect piece for layering.

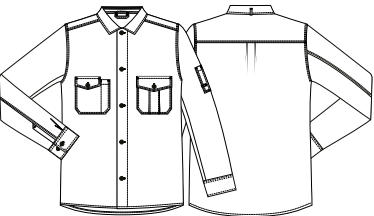

With its classic shirt collar, button closure and divided pen pocket on the sleeve, it balances practical function with a sharp, professional look.

Crafted from a blend of 65% polyester and 35% cotton with natural stretch, the Overshirt offers comfort without restricting movement. The material is dyed to ensure long-lasting color fastness and to maintain the overshirt's sharp, professional look wash after wash.

Robust, versatile and built for every shift, this is workwear that goes over and above.

“

I've worn many brands, but Kentaur's designs really stand out. The workwear combines practicality with comfort, and when you're always moving, that matters.

Michael Nørtoft, Owner & Head Chef, Ti Trin Ned, Denmark
@michaelnortoft

“

Uniforms and food have a thing in common, both should be intended to make us feel special. Kentaur doesn't only create stylish garments, but stands for comfort, durability and understands the complexity of a modern Chefs uniform. I have worn and implemented Kentaur in Singapore, multiple Hotels in the Middle East and now Switzerland.

André Kaiser, Director of Culinary
The Chedi Andermatt, Switzerland

Chef Jacket
23515

Let's Wing it.
In style.

Chef Jacket
23516

The Wing Jacket has become a favorite among chefs and service staff for its unique mix of style and practicality. It combines the simplicity of a classic chef jacket with the elegance of a double-breasted look, creating a versatile piece that works across kitchens, catering, retail and bakery settings.

Lightweight and comfortable, it is made from a blend of 65% recycled polyester from PET bottles and 35% cotton. With a fabric weight of just 175 to 180 g/m², it delivers breathability and lasting performance while keeping you cool in warm environments.

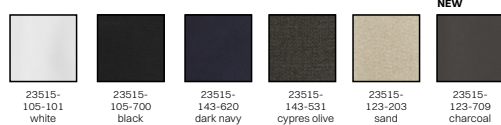

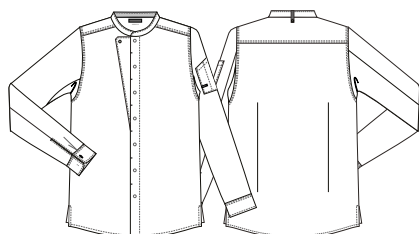

Thoughtful details make the design stand out. A single visible button at the neck adds a distinctive touch, while the overall cut gives a relaxed, approachable look.

Now available in six colors: white, black, green, sand, blue and charcoal, the Wing Jacket adapts easily to different roles and concepts. Let's Wing it, in style.

23515 Chef/service jacket

- Our Choice: quality 105 and 143

Chef Jacket
23570

Urban edge. Professional finish.

Designed for professionals who move seamlessly between kitchen and front of house, the Urban Jacket combines a modern city-inspired look with functional details tailored for catering and service staff.

Its raw, contemporary aesthetic is defined by bold double stitching and a distinctive closure at the neck with a single visible button. A concealed snap button closure keeps the silhouette sleek, while details like a pen pocket, chest pocket, apron neck strap and Pull-Up sleeves add everyday practicality.

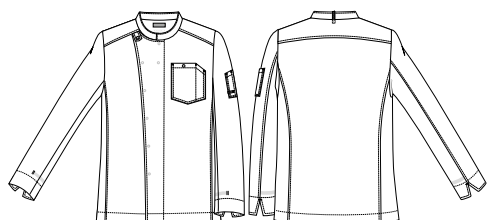

Crafted from a durable blend of 65% polyester and 35% cotton, the Urban Jacket is built for long-lasting performance. The white version is made with recycled polyester from PET bottles and cotton, offering the same comfort and durability while incorporating recycled materials.

With rugged details, sharp tailoring and a modern silhouette, the Urban Jacket delivers urban edge with a professional finish.

TENCEL™ is a
trademark of Lenzing AG

TENCEL™ Lyocell & TENCEL™ x REFIBRA™

Our chef jackets made with TENCEL™ Lyocell combine comfort, durability and responsibility in one. TENCEL™ Lyocell fibers come from certified wood sources and are produced in a closed-loop process where almost all solvent is recovered, resulting in minimal waste. The fibers are naturally soft, breathable and long-lasting. TENCEL™ helps regulate temperature through efficient moisture management and naturally reduces odor development, making it especially suitable for chefs and service staff working long shifts in warm environments.

With TENCEL™ x REFIBRA™ we take the innovation further. Here, wood pulp is combined with recycled cotton textile

waste to create new fibers with recycled content. In our chef jackets, this is paired with recycled polyester from PET bottles to deliver the same comfort, durability and hygiene benefits while reducing waste and improving resource efficiency.

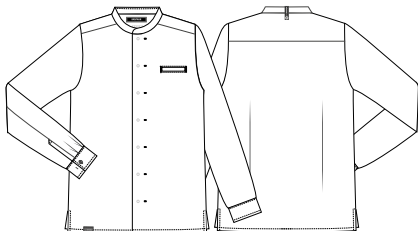

Both fabrics are tested for the demands of Textile Service, making them practical for laundries as well as comfortable for professionals. Whether made with TENCEL™ Lyocell or TENCEL™ x REFIBRA™, our jackets prove that responsibility and performance can go hand in hand.

TENCEL™ and REFIBRA™ are trademarks of Lenzing AG.

Chef Jacket
23560

All-around. *All day.*

The All-around Jacket is designed for comfort, versatility and effortless style. With its lightweight construction and roomy fit, it suits almost all body types, making it a easy choice for people who need flexibility in their workwear

Raglan sleeves provide natural mobility and a flattering drape, while side slits add ease of movement. A narrow double-breasted front gives the jacket a modern yet classic look, complemented by functional details like a pen pocket, welt chest pocket and an apron neck strap.

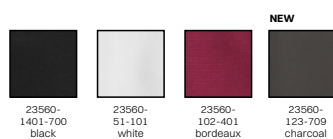

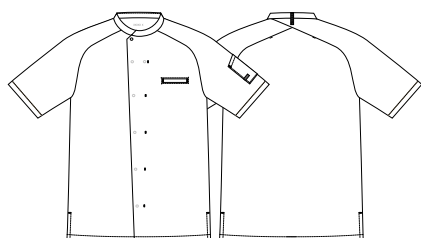

Now available with both half sleeves and 7/8 sleeves, the All-around Jacket adapts to different preferences and workday needs. Made from a durable blend of 65% polyester and 35% cotton, it delivers lasting performance and a crisp, professional appearance wash after wash.

Reliable, practical and stylish, the All-around Jacket is a true favorite for those who value comfort, durability and timeless design.

A chef with a full beard and hair tied back is shown from the chest up, wearing a dark olive-green Kimono Jacket. He is holding a clear plastic container of white powder (likely salt or sugar) in his left hand and sprinkling it with his right hand. The background is a kitchen with white tiled walls and various kitchen items on shelves. A woman in a dark uniform is visible in the background, slightly out of focus.

Kimono Jacket
23700

Tied together with Takumi.

In Japan, Takumi means craftsman, someone who has refined their skills over decades to achieve excellence. Inspired by this dedication, the Takumi Line brings traditional Japanese workwear into a modern setting, tying together comfort, practicality and a clean, contemporary look.

The Takumi Jacket features a relaxed fit and wrap-around closure with an inner tie for extra coverage. With $\frac{3}{4}$ sleeves, a pen pocket and an apron neck strap, it balances tradition with everyday functionality.

The Takumi Pants are designed with inspiration from classic

hakama pants, offering a spacious and flexible fit. With an adjustable waistband, multiple pockets and a half-elastic hem at the legs, they deliver freedom of movement and smart storage throughout the day.

Crafted from Our Choice materials, a durable blend of 50% recycled polyester from PET bottles and 50% cotton, the Takumi Line ensures lasting performance while reducing environmental impact. And now, alongside dark navy, it is also available in cypress olive: two timeless shades of blue and green, ready to tie your workwear concept together.

Casual Jacket
25980

Suit up. *To perform.*

The Performance Suit is made for professionals in reception, gastronomy and other settings where looking sharp is essential but practicality cannot be compromised. It blends elegance, functionality and industrial-grade durability, ensuring a polished appearance that lasts through busy shifts and frequent laundering.

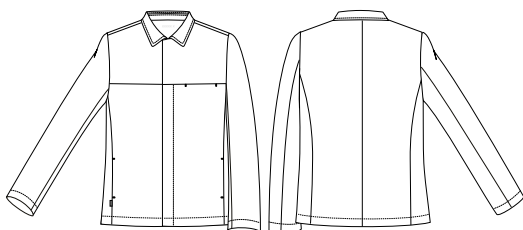

Crafted with REPREEVE® recycled polyester from PET bottles and Creora Power Fit, the fabric offers 4-way stretch for full mobility while withstanding high heat and industrial washing. The result is lasting comfort, ease of movement and a suit that keeps its shape and refined look day after day.

The collection includes jackets, pants, skirts, vests and dresses, giving teams the flexibility to build a consistent and professional image. New this season is the casual jacket, now also available in a women's fit. With its clean lines, versatile styling and practical details, it brings a modern edge to the Performance Suit family.

Timeless Oxford. Out of the ordinary.

The Oxford Shirt combines casual comfort with timeless elegance, making it a versatile choice for kitchens, service, retail and reception. With its clean lines and tailored fit, it delivers a polished look that feels professional yet relaxed.

Crafted from a durable blend of cotton and polyester, the Oxford provides breathability, comfort and long-lasting performance, even after repeated washing. Details such as strengthened seams, Pull-Up cuffs and functional pockets add convenience to support busy workflows.

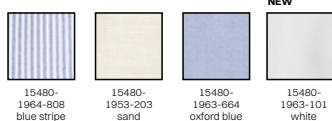

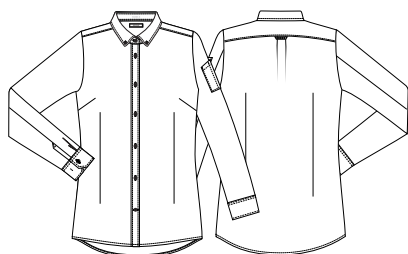

Available in both men's and women's designs, the Oxford range now includes a short-sleeve model and a new white color, joining the existing muted tones. The cotton used in the Oxford is sourced through the Better Cotton initiative, which works to improve global cotton farming practices. While the fabric may not contain Better Cotton itself due to the mass balance system, choosing it supports Better Cotton's mission.

The Oxford Shirt is classic, reliable and refined. Timeless, yet out of the ordinary.

Workwear with a stretch.

At Kentaur we believe workwear should move with you, not against you. Our shirt crafted in stretch quality is designed with flexibility, comfort and durability in mind, making it the perfect choice for professionals who demand ease of movement without compromising on style.

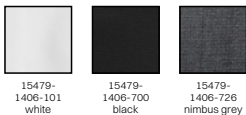

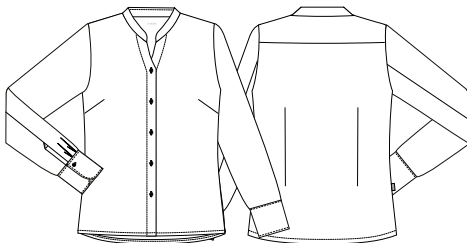

The innovative stretch fabric is heat and shape resistant, ensuring it withstands industrial laundering while keeping its form and fit wash after wash. Strong, reliable and practical, it is built to handle demanding conditions while maintaining a modern and professional look.

The shirt is available in both classic long-sleeve and the new short-sleeve version. For added variety, it also comes with a teardrop-shaped neckline opening. A true blend of innovation, comfort and timeless design, made to perform in today's work environment.

“

Kentaur just produces the best-suited uniforms. I have used them for several years, and I can't find a flaw. Light, trendy, comfortable clothing that lets the skin breathe easily, the team absolutely loves the uniforms, and it changes the daily mood, knowing you can be comfortable all day long. Proud to represent Kentaur.

Christian Pedersen, Executive Chef
The St. Regis Maldives Vommuli Resort

“

For me, Kentaur was love at first wear. The comfort is unmatched. In Italy, where kitchen temperatures can be brutally high for months on end, Kentaur's workwear remains lightweight, breathable, and never clings to the body. It feels effortless to wear and is easy to wash and keep clean. The design is elegant, simple, and clean-cut – almost with a 'Japanese' minimalism that I truly appreciate. It's simply high quality.

Matteo Camelli, Owner and Chef at Al Vecchio Convento, Italy
Matteo is pictured holding his Lagotto dog, Lydia, whom he takes with him to find truffles in the surrounding Italian mountains.

“

Kentaur workwear is the perfect blend of functionality, comfort, and style. In a fast-paced environment, I need clothing that moves with me, stands up to the demands of the job, and still looks sharp. Kentaur delivers on all fronts with high-quality materials, smart design, and a perfect fit. Whether in the kitchen or on the floor, I can rely on their workwear to keep me comfortable and professional throughout the day.

Jan Horák, Director of Culinary
Augustine, The Luxury Collection Hotel, Czech Republic

“

With Kentaur, I have found workwear that keeps me warm when I'm outside, lets me move freely, and still feels like me. Every detail matters when you pursue what you love.

Brian Bojsen, Chef, Germany
@brian_bojsen

Silhouette *Guide*

Shaped silhouette

The shaped silhouette is slim at the knee and bottom, creating a streamlined look.

Article No. 16221-105-700

Article No. 18190-1401-700

Relaxed silhouette

The relaxed silhouette has a loose fit, offering extra room from the hip down to the bottom.

Article No. 16319-79-700

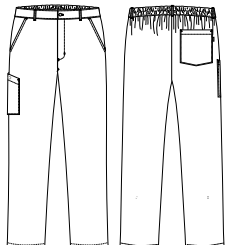

Regular silhouette

The regular silhouette shapes the body without clinging, making it the perfect balance between too tight and too loose.

Chef Jacket
23522

“

The mark of a great chef starts with the right jacket - crafted for comfort, durability, and style. Our Kentauro jackets blend premium quality with performance, ensuring you stay sharp and focused in the heat of the kitchen.

Sam Everton
National Chef of Wales 2025

“

The high standard and user duration of Kentauro's chef wear is in line with my vision as a chef and entrepreneur regarding quality and sustainability. The wide range of models and materials of Kentauro's chef wear has made it possible for me to find a perfect match for all the different restaurants and concepts we have opened over the last 8 years. I am still very happy and proud to work with this brand that keeps developing and improving their products just like we try to do.

Freek Van Nortwijk, Owner & Chef,
Restaurant Breda, Amsterdam, @restaurantbreda

Chef Shirt
25204

A close-up photograph of a woman with dark hair, wearing a white button-down shirt, adjusting a grey apron. She is looking down at the apron with a slight smile. The apron has a dark strap over her shoulder and a small pocket with a strap. The background is blurred.

Apron
30385

Simple choice. Natural finish.

The SNB Apron is designed for those who value simplicity, function and a natural look. With its clean design and durable construction, it offers a practical solution that feels as good as it looks.

With 2-in-1 functionality, it transforms effortlessly from a full bib apron to a bistro-style waist apron, adapting to the demands of the task. Practical details such as a pen pocket, front pocket with barista strap, a loop for name tags and an adjustable neck strap make it as functional as it is versatile.

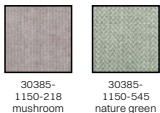

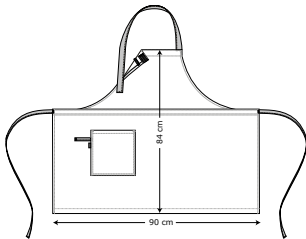

Crafted from a fabric with a soft handfeel and a natural woven structure, the SNB Apron comes in warm, earthy colors and is available in two lengths. A simple choice with a natural finish, ready for everyday performance.

Apron
30460

Rock solid. Cross functional.

An apron is more than an accessory. It is a tool that supports professionals in their everyday tasks. The Rock Cross collection combines style, functionality and durability in a raw, modern look inspired by traditional leather aprons while maintaining hygiene and practicality.

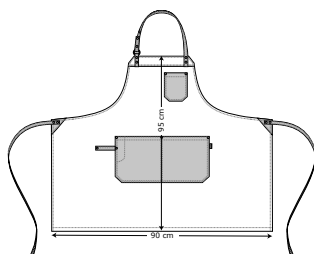

Created for trendy waiters, skilled baristas, butchers and industrial laundries, the series offers different designs tailored to diverse needs. Details like metal rings, rivets, contrasting materials and practical pockets add both character and function.

Made from durable and comfortable materials, Rock Cross aprons deliver long-lasting protection with a casual yet professional appearance. Tough, reliable and designed for everyday performance, they are built to stand as strong as the people who wear them.

Apron
30360

One apron. Two ways.

An apron is more than a garment. It is a tool that supports professionals through every shift. The RAW Bib Apron combines durability, comfort and modern design with the versatility to adapt to different roles.

With its 2-in-1 functionality, it transforms effortlessly from a full bib apron to a bistro-style waist apron, depending on the task at hand. Practical details like a pen pocket, side pocket, barista strap and a loop for name tags ensure it is as functional as it is stylish.

Available in a variety of colors, the RAW Bib Apron is made from durable, comfortable materials with vat-dyed fabrics for long-lasting color fastness. Whether protecting a uniform or switching styles, it delivers everyday performance for kitchens, cafés, restaurants and grocery stores.

A touch of circularity.

We are committed to extending the life of textiles and reducing the need for new raw materials. With Circular Touch we take a step toward circularity, creating garments from textiles that have reached the end of their first life cycle.

The fabric contains 10-20% recycled post-consumer cotton and polyester, blended into new material that delivers the same trusted look, comfort and functionality you know. Each piece is designed for industrial laundering, ensuring durability, colorfastness and long-lasting performance in demanding work environments.

Circular Touch is now available in aprons and in our Menu Chef Jacket. Both are built to withstand daily use while reducing waste, offering a better alternative that delivers the quality and reliability Kentaur is known for.

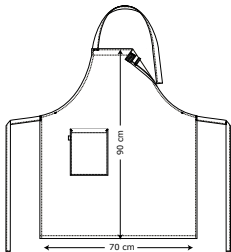

Because the fabric contains mechanically recycled cotton and polyester, small colored specks may appear in the material. These natural variations are a visible reminder of the fabric's recycled origin.

“

Kentaur chef jackets are a real game-changer - they look great, feel super light, and can handle the toughest kitchen shifts. Whether you're grilling outdoors in Dubai's heat or working indoors, they keep you comfortable and looking sharp with their modern styles. My jacket of choice for over a decade.

Dirk Haltenhof, Director of Culinary
Discovery Dunes, Dubai

“

The new Kentaur T-shirt is world-class. I really appreciate the thoughtful details like the pen pocket, apron strap and reinforced neckline, and the quality is just excellent.

Kenneth Toft-Hansen
Owner & Executive Chef, Svinkløv Badehotel

Chef Jacket
23530

“

As a chef, I believe that every element of my craft should be a reflection of excellence, precision, and passion. That's why I choose Kentaur as my number one choice for chefs' uniforms. Kentaur understands the demands of our profession and creates attire that marries impeccable craftsmanship with practicality. Their attention to detail ensures that I can move freely, while their use of premium fabrics guarantees comfort and durability. Kentaur's commitment to exceptional design and functionality aligns perfectly with my culinary philosophy, allowing me to express my creativity with confidence and style. When I wear Kentaur, I feel empowered to create culinary masterpieces while embodying the essence of culinary artistry.

James Knight-Paccheco, Co-Founder of Group JKP,
@jamesknightpaccheco

“

Being comfortable in the kitchen is essential for any chef, and Kentaur not only promises that but delivers. A crisp, well-tailored white jacket is part of our professional image, inspiring young chefs and showing our guests who we are. Because when you care about your craft, the details matter..

Andy Cuthbert, Chef & President of Worldchefs
(World's Association of Chefs Societies)

HACCP.

Safety in every stitch.

The Kentaur HACCP collection is made for food industry professionals who need workwear that supports hygiene at every level. Certified across all three DIN 10524 hygiene risk classes, our garments are designed with smooth surfaces and hygienic materials to reduce contamination risks without compromising on comfort.

Certification applies to the combination of top and bottom garments, not to individual pieces on their own. And since not all products are suitable for all risk classes, it is important to choose the right garments for your environment.

Our team is here to guide you through the selection process and ensure you find the right HACCP workwear. For more information, visit kentaur.com. For personal support, reach out to us at customerservice@kentaur.com.

The three hygiene risk classes define how much contact garments have with food:

CLASS 1:

minimal contact, such as storage and handling of packaged goods

CLASS 2:

handling unpackaged food, requiring stricter hygiene standards

CLASS 3:

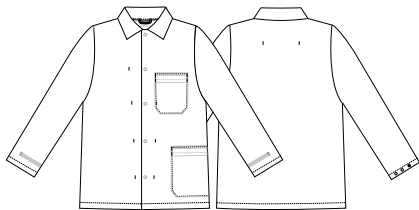

direct contact with sensitive foods like meat and dairy, with the highest hygiene demands

Kentaur x PRO Wear by ID®

At Kentaur we know hard work demands workwear that keeps up with you, no matter the challenge. That is why we are proud to be ID®'s preferred partner in selected markets within the textile service sector, bringing you the PRO Wear by ID® collection.

PRO Wear by ID® is made for employees who are active in their work and need clothing that simply lasts, day after day. Every product is designed for freedom of movement and comfort in any position, so performance never comes at the expense of fit.

The collection is pre-shrunk to ensure a reliable fit over time. White garments withstand industrial washing at up to 80 degrees, while colored garments hold strong at 60 degrees, making them ideal for textile service. With PRO Wear by ID®, durability and comfort go hand in hand.

Materials that matter.

Better Cotton

Kentaur is a proud member of the Better Cotton Initiative. With our membership, we have committed ourselves to improving global cotton cultivation. Better Cotton operates on a mass-balance system, meaning that purchasing a product with the Better Cotton logo does not guarantee the product contains cotton directly sourced from Better Cotton-certified farms. However, by buying a product with sourced Better Cotton, you contribute to a more responsible production of cotton.

We only mark products with the Better Cotton logo when cotton is the dominant material in the product. If you want to learn more about Better Cotton, visit bettercotton.org/massbalance.

REPREVE® recycled Polyester (rPES)

REPREVE® is polyester made from used plastic bottles. REPREVE® works to create a cycle where waste is recycled.

TENCEL™ Lyocell

TENCEL™ Lyocell fibers are derived from controlled or certified wood sources and produced in a closed loop process, which recovers 99,8% of the solvent – resulting in a close-to-zero wastage. The fibers support a natural dry feeling through moisture control and are naturally soft and smooth to the touch. TENCEL™ is a trademark of Lenzing AG.

TENCEL™ Lyocell REFIBRA™ Technology

To produce TENCEL™ Lyocell with REFIBRA™ Technology, wood, and cotton textile waste are used as raw materials. The fibers contain a minimum of 30% recycled materials. TENCEL™ Lyocell fibers with REFIBRA™ Technology offer the same benefits as standard TENCEL™ Lyocell fibers. Like TENCEL™, REFIBRA™ is also a trademark of Lenzing AG.

Cotton (CO)

Cotton is a soft, natural fiber that absorbs moisture effectively, offering excellent comfort. It is also highly durable, second only to synthetic fibers, making it ideal for blending with polyester to create materials that are both durable and hard-wearing.

Polyester (PES)

Polyester is the most used synthetic fiber. When blended with cotton, the optimal mix is 65% PES / 35% CO, ensuring durability and suitability for washing. Polyester enhances the polyester/cotton blend with qualities such as strength, minimal shrinkage, crease resistance, and short drying time, making PES/CO blends particularly suitable for workwear.

Elastane/EOL/EME/Mechanical stretch

Stretch fabrics significantly enhance comfort through elasticity. To maintain elasticity and comfort throughout the product's lifespan, it is important to ensure high recovery. Kentaur uses stretch fabrics created either through firmly spun yarns and the advanced weaving techniques (mechanical or natural stretch) or elastic fibers that can withstand industrial laundry processes without losing their elasticity.

Twill

Twill is a weave characterized by distinctive slanting stripes, as seen in denim. The twill construction produces a structured surface and a supple fabric. Many of our fabrics are twill, because this fabric is good for pants, upper parts, and aprons.

Plain/Panama

Plain weave is the simplest weave. It is the same on both sides, firm and stable, and produces a strong fabric. It is normally used for lighter products such as shirts and functional shirts. Panama is derived from the plain weave, but there are fewer binding points, which produces a softer and more supple fabric. Panama is normally woven in thicker yarns, which combines with the weave to produce a smart structured surface. Panama is used for aprons in our collection.

Piqué

Piqué is a knitted construction commonly used in polo shirts. At Kentaur, piqué is used in garments in our HoReCa & Retail and Healthcare & Service segments. Knitted fabrics generally increase the comfort for the wearer since they have greater elasticity and allow greater freedom of movement than woven fabrics. We collaborate with different producers to ensure that piqué fabrics can be washed in accordance with ISO 15797 and meet requirements for stability of shape and color fastness.

Dyeing

For Textile Service, good color fastness is important. The majority of our collection is vat dyed, which gives the best achievable color fastness against light, weather and washing. Furthermore, they withstand bleach better than other dyes, ensuring that Kentaur products can be handled according to ISO 15797 and a variety of hygiene standards. Our OEKO-TEX® STANDARD 100 certificate ensures that the dyes and chemicals, that are used, comply with REACH.

Materials with recycled textiles

Our materials with recycled textiles contain recycled textile fibers from pre- and/or post-consumer textiles. Pre-consumer textiles are textile waste from production, while post-consumer textiles are textiles that have been worn out in their current form. The material quality is developed for industrial laundries, ensuring good durability and colorfastness. The percentage of recycled material in the fabrics can vary from style to style. If you want to know the precise percentage of recycled material, you can always find this information on the individual product.

OEKO-TEX® STANDARD 100

is a certification for products that assures the consumer that no components of a Kentaur product contain substances that are harmful to health or the environment in larger quantities than permitted in product class II (products in contact with the skin).

We have two OEKO-TEX Standard 100 – one for recycled materials (ID no. 2276-363) and one for non-recycled materials (ID no. 1676-235).

In the catalog, you will see the OEKO-TEX logo, but not the exact certification details. However, you can find the specific certification details for each quality on www.kentaur.com

Key to symbols.

ISO 15797

The product complies with the ISO 15797 standard, ensuring it meets the requirements for handling by Textile Service.

Adjustable waist

The product is adjustable at the waist with elastic and button or snap fastener, providing a better fit and added comfort.

Breathe & stretch

The product contains materials that enhance both breathability and mobility.

Comfort stretch

The product's back is cut on the bias, and the diagonal direction allows better elasticity and freedom of movement.

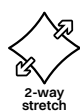

Vat dyed

Used to dye cellulose fibers like cotton and lyocell, these materials get the best attainable color fastness. Vat dyes withstand bleaches better than other dye types.

Reactive dyed

Products are dyed using reactive and dispersed dyes. Clear shades can be obtained with reactive dye. However, they do not tolerate bleaching.

2-way stretch

The product features 2-way stretch fabric, which stretches in only one direction - either horizontally or vertically. This provides flexibility, comfort, and a better fit.

4-way stretch

The product features 4-way stretch fabric, stretching both horizontally and vertically for maximum flexibility, comfort, and unrestricted movement in all directions.

Snap-on apron

The product has press buttons for securely attaching an apron to a chef's jacket.

Pull-Up cuff

Our Pull-Up cuffs have an elastic band and button on the cuff, making it easy to adjust your sleeve in seconds.

Pull-Up sleeve

Pull-Up elastic in the sleeves allows for effortless adjustment. Patented design.

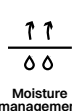

Mobility sleeves

Products with mobility sleeves are designed to keep the jacket in place, preventing it from sliding up during movement.

Interlining

The product has stiffening interlinings from Freudenberg, which meet the requirements of Textile Service (ISO 15797).

Moisture management

The product contains fabric with moisture-absorbent benefits that keep the wearer dry and comfortable all day.

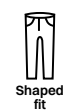

Ergonomic neckline

The neck design evenly distributes the article's weight, giving ergonomic advantages. Registered design DM\221854.

The slim silhouette

The slim silhouette fits closely to the body, from the hips to the feet, creating a clean appearance.

The shaped silhouette

The shaped silhouette is slim at the knee and bottom, creating a slim look.

Basic build women

Two core products with the same chest measurement, available in multiple variants and an unlimited number of combinations.

The regular silhouette

The regular silhouette fits to the body without clinging.

The relaxed silhouette

The relaxed silhouette has a loose fit, with extra room from the hips to the bottom.

Basic build unisex

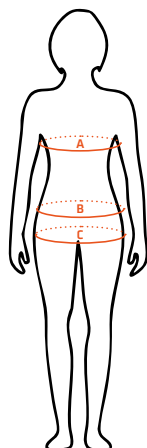

Two core unisex products with the same chest measurement, offered in multiple variants and endless combination possibilities.

Right size. Right fit.
