Hotelier Tips of Tea

To understand and reevaluate traveler’s desires, IHG Hotels & Resorts’ voco hotels conducted a recent global survey to uncover what consumers returning to travel really want from their hotel experience. The survey found that nine in 10 respondents rank great service as most important to them when staying at a hotel. But the new study also showed that travelers crave unexpected service offerings — and this is where tea comes in. Reported by worldteanews.com

“Essentially, approaching hotels as an independent tea rep is extremely tough, and this is why hotel experiences with tea are largely sub-optimal,” reveals Amy Dubin, owner of Janam Tea and a speaker at the upcoming World Tea Conference + Expo. (Photo by: Ninelimages / BigStock.com)
